Tobacco Affects the Lives of Kids

Program Details for the Educator

Thank you for showing interest in tobacco prevention. **Tobacco Affects the Lives of Kids** (TALK), Revised Edition, 2007, is designed for use by teachers, public health nurses or other educators.

Your package of materials includes: TALK manual, TALK Workbook, TALK Workbook Educator Guide, supplementary resources and additional supplies required for the delivery of the program.

A list of enhancing activities is included in each lesson. You will need to make arrangements for booking supplementary videos and other resources, as well as produce some posters for the enhancing activities you select to do with your students.

Student materials will be provided to you by Public Health Services. Please let me know how many copies are required.

Several activities need to be completed prior to Lesson 1. These include:

- review Educator package
- set program implementation dates
- select groups and group leaders
- order/prepare resources used in enhancing activities
- deliver *"Introduction: What's TALK All About?"*
- prepare group leaders
- create *"TALK Key Message Board"*

Throughout the delivery of Lessons 1 through 6:

- participate in the delivery of *Engaging the Learner, Learning Activities and Learning Assessment* sections of the lessons
- deliver the enhancing activities between the lessons
- participate in classroom discussions
- assist with facilitation of group activities
- follow up with the group leaders

- reserve audio-visual equipment when required
- provide classroom management
- ensure all assignments are completed on time
- evaluate students' learning and progress during the program

Following Lesson 6:

- complete the TALK certificates for students and group leaders
- deliver *"TALK in Review: A Final Look"*
