The Opportunity

The GIM (General Internal Medicine) division is a partnership between the University of Saskatchewan and the Saskatoon Health Region with both community- and university-based clinicians, educators, and researchers. Collective responsibilities include clinical care of inpatients and outpatients, education of undergraduate and postgraduate trainees (including a flexible one- or two-year GIM post-core fellowship training program), and research.

At present we are seeking the following:

- Division Head to provide academic and clinical leadership to the Division of General Internal Medicine as well as collaborative co-leadership with the Director of General Medicine for the Saskatoon Health Region.
- Clinical GIM Physician whose primary role is clinical care in the inpatient and outpatient setting. There is an opportunity for those who desire to participate in both undergraduate and postgraduate education.

The Candidate

The successful applicants will be licensed in Internal Medicine, preferably trained through a general internal medicine training program, and hold or be eligible for a Saskatchewan medical licence.

Canadian Light Source Synchrotron

The \$173.5 M Canadian Light Source synchrotron, a national facility owned by the University of Saskatchewan, is the largest science project in Canada in more than 30 years. This facility is a unique national resource that will light the way to a new era of science and innovation for academic, industrial, and governmental researchers. The "BMIT"

(Biomedical Imaging and Therapy) beamline is currently being constructed. The BMIT is designed for the purpose of imaging biological tissue and conducting radiation therapy research. The BMIT facility will address the interest of scientists and clinicians in the diagnosis and treatment of cancer, circulatory and respiratory disease, neurological and behavioural disease, reproductive dysfunction, musculo-skeletal disease and kinesiology, and dental conditions.

The University

A publicly funded institution established in 1907, the University of Saskatchewan offers a full range of curricula, both academic and professional, with students registered in 13 colleges, including health sciences (medicine, nursing, dentistry, physiotherapy, pharmacy and nutrition, and kinesiology) and veterinary sciences.

The Region

Saskatoon Health Region is one of the most integrated and complex health delivery agencies in Canada. We are the largest health region in Saskatchewan serving more than 300,000 residents in over 100 cities, towns, and rural municipalities. Saskatoon Health Region is the largest single employer in the province with over 11,000 staff and 750 physicians across the Region providing a complete range of health services to residents of central and northern Saskatchewan. The city's three acute care hospitals – St. Paul's, City, and Royal University – comprise three of the province's tertiary teaching centres.

The City

Saskatoon Shines – with more hours of sunshine than any other major Canadian city. With a population of 230,000, Saskatoon is the largest

city in Saskatchewan, boasting small town spirit and big city amenities. World class events, festivals and attractions ... strong arts and music focus ... a short drive to the northern lake country ... a variety of indoor and outdoor sporting facilities ... and more golf courses per capita than anywhere in North America. The city is noted for its outstanding walking and biking trails along the riverbank and excellent educational facilities, including the University of Saskatchewan. What's more – everything is within 15 minutes of home.
