*Art Expression*

*Alvin Buckwold Child Development Program*

## *We're here to help.*

All kids can have fun with art. We welcome kids ages 7 to 12 to be part of this new and exciting project.

This group aims to:

- Offer your child additional opportunities for social interaction
- Help your child explore and address their strengths
- Provide a space where your child can discover various artistic methods of self-expression
- Enhance your child's visual, sensory and cognitive growth
- Enable your child to celebrate their own creative process

Creativity blossoms when kids are given a chance to explore their imagination as well as express their thoughts and feelings. Art also offers an alternative means of communication to spoken and written language.

*Let's get  
inspired!*

## *How does the group work?*

Have no fear: this group requires no artistic ability or past experience with art.

Your child will have a great time exploring a variety of different art mediums.

We're flexible and will adjust our activities according to the needs and abilities of our participants.

This is a new project for us and we would love to hear from parents about your ideas and suggestions.

Your involvement is welcome and necessary for the success of our program.

*Celebrating  
creativity!*
