## Acute Care [ARO] Outbreak Protocol

This form needs to accompany all clients transferred off of [Site & Unit] to another unit or facility within the region.

The client admitted to your unit was a client on unit [Site & Unit] which is currently experiencing a [ARO] outbreak.

The client is currently [ARO] negative. As a part of the [ARO] outbreak protocol:

1. The client requires Contact Precautions. Every effort should be made to place client in a private room.
2. Complete a [ARO] screen 7 days after the discharge/transfer from [Site & Unit].  
Date: \_\_\_\_\_  Positive  Negative      Initial \_\_\_\_\_
3. Notify the Infection Prevention & Control Department at [Insert ICP phone number] once the [ARO] screen result is finalized and negative to remove the client from Contact Precautions.
