

This unit is in a

# SUSPECT OUTBREAK

Organism: \_\_\_\_\_

## ATTENTION

### STAFF:

When in an outbreak, follow these steps to minimize risk of transmission:

- ✓ Be diligent with hand hygiene.
- ✓ Remind and assist our clients to perform hand hygiene properly.
- ✓ Assist visitors to use PPE properly.
- ✓ Disinfect commonly used items before and after use (i.e., stethoscope).
- ✓ Wear clothing that is easily laundered in hot soapy water and dried in a hot dryer after every shift.
- ✓ Do not eat or drink on the unit.

### VISITORS:

- ✓ Perform hand hygiene with alcohol-based hand rub or soap and water before and after your visit.
- ✓ Only meet with one client per hospital visit.
- ✓ If you are ill, please delay your visit until you are well.
- ✓ Avoid sitting on or setting your belongings on the client bed.
