

Policy

Saskatoon & Area - Occupational Health & Safety

Number: 53-011

Title: Physical Hazard:

Thermal Conditions: Indoor/Outdoor Cold

Saskatchewan Employment Act:

OH&S Regulation: 70

Date: January 1, 2017

Date Revised/Reaffirmed: May 28, 2018

Any PRINTED version of this document is only accurate up to the date of printing. Saskatchewan Health Authority (SHA), Occupational Health & Safety Services (OHS) cannot guarantee the currency or accuracy of any printed policy. Always refer to the Occupational Health & Safety internal website for the most current versions of documents in effect. This policy complies with legislation (minimum standards) at the time of this writing and/or revision. SHA OHS accepts no responsibility for use of this material by any person or organization not associated with SHA. No part of this document may be reproduced in any form for publication without permission of SHA OHS Services.

Purpose

To reduce the risk of accidents, hypothermia and frostbite during outdoor work in cold weather or cold conditions

Roles and Responsibilities

Employer must ensure:

- That in an indoor environment the temperature is appropriate for the work being performed and is of a reasonable thermal comfort
- That if the temperature may pose a safety risk to workers the temperature will be monitored
- Effective protection for all workers is provided
- Reasonable thermal comfort of workers

Manager/Supervisor must ensure:

- That roles and responsibilities of all workers are being met, as well as applicable legislation and/or standards
- Safe work procedures are written and followed
- When work involves riding on an unshielded vehicle or in windy conditions, use shields or screens to protect workers from wind
- Observation from a co-worker who is trained to recognize symptoms resulting from extreme temperatures
- Ensure the availability of a warm location for warm-up breaks; in some circumstances a “buddy system” or a reliable communication system should be used
- A plan is in place when required for workers to alter their pace of work, increase rest breaks and fluid intake when symptoms present. Preventative measure may include job rotations
- Appropriate clothing is provided or allow workers to obtain suitable clothing and/or footwear; some vehicles may need to be equipped with survival gear

Worker must ensure:

- They are trained in and follow the safe work procedures
- They are trained in and use any PPE required (selection, use, care and handling)
- They report to their supervisor and the Safety Alert System/Incident Report Line for any symptoms related to or near miss conditions as a result of cold weather

Materials

- Appropriate PPE if required

Non-Compliance/Breach:

Non-compliance with this policy will result in a review of the incident. A review for non-compliance may result in disciplinary action, up to and including termination of employment or privileges; fines and /or prosecution of individuals under the Saskatchewan Employment Act and OHS Regulations.

Review Dates:

January 1, 2017

May 28, 2018
