CAREER OPPORTUNITY

Clinical Biochemist PhD

Posting Date: October 1, 2019

Position profile – The Saskatchewan Health Authority-Saskatoon, Department of Pathology and Laboratory Services currently seeks a full time Clinical Biochemist to provide consultation and liaison with physicians in the interpretation of laboratory test results while utilizing Lean Management methodology in providing proactive leadership.

The Department of Pathology and Laboratory Medicine combines academic, research and service components within Saskatoon and College of Medicine, University of Saskatchewan. The Department has an accredited residency training program in General Pathology and provides training/teaching at the undergraduate, graduate and post-doctoral level as well as training for medical laboratory technologists and assistants. The successful candidate will join a group of laboratory professionals (anatomic pathologists, microbiologists, biochemists, hematopathologists, molecular geneticists) providing specialty testing/consultation to health care providers at the three acute care centers in Saskatoon as well as referral and consultant services to the surrounding Saskatchewan Health Authority centers and community based physicians

Language of work: English Benefits – attractive benefits plan Location of practice – Saskatoon, Saskatchewan

Qualifications/Requirements of the position – The successful candidate will hold a PhD degree with formal training in Clinical Biochemistry, be certified or a fellow (or eligible for certification or fellowship) in the Canadian Academy of Clinical Biochemists and be eligible for membership on the SHR Practitioner Staff.

The City - Saskatoon Shines - With more hours of sunshine than any other major Canadian city and a population of 265,000+, Saskatoon is the largest city in Saskatchewan, offering non-stop entertainment opportunities including world class events, festivals and attractions, a strong arts and music focus, and a short drive to the northern lake country. Saskatoon has more golf courses and restaurants per capita than anywhere in North America and is noted for its outstanding walking and biking trails along the riverbank. Excellent educational facilities such as the University of Saskatoon, home of the Canadian Light Source synchrotron, draw the best minds from around the world creating a youthful vitality and cultural richness evident in every neighbourhood.

The Authority - The Saskatchewan Health Authority is the largest organization in Saskatchewan, employing over 44,000 employees and physicians responsible for the delivery of high quality and timely health care for the entire province. We are driven by the commitment to improve front line patient care for Saskatchewan people, and we are working together to better coordinate health services across the province to ensure that patients receive high quality, timely health care, wherever they live in Saskatchewan.

The University - The beautiful University of Saskatchewan campus is located on the shores of the South Saskatchewan River in Saskatoon, a city with a diverse and thriving economic base and a vibrant cultural life. The UoFS is a research-intensive institution with 22,000 students and 7,000 faculty and staff, and a strong reputation for innovation and excellence. It is home to the newly constructed Academic Health Sciences Complex (http://library.usask.ca/hsl/new-building.php) and two of the largest science projects in the country – the Canadian Light Source synchrotron (www.lightsource.ca) and the Vaccine and Infectious Disease Organization/International Vaccine Centre (www.vido.org). A users group is available for collaborative research with clinical faculty using the $173.5 million Canadian Light Source synchrotron, owned by the University of Saskatchewan. The College of Medicine has an intake of 100 students per year with a commensurate number of positions for residency training.

To Apply – Saskatchewan Health Authority supports a shared commitment to a Representative Workforce that is respectful and inclusive of all staff and clients and welcomes applications from those who will contribute to the diversity of our community. All qualified candidates are encouraged to apply; however, Canadian citizens and permanent residents will be given priority.

Interested candidates should submit their curriculum vitae in confidence to:

Jennifer Grunert, Recruitment Coordinator, Practitioner Staff Affairs
Email: jennifer.grunert@saskhealthauthority.ca

Please note applications will be accepted until the position is filled.
