

DEVELOPMENTAL PEDIATRICIAN (Full Time)

Posting Date: April 7, 2022

Position profile – Saskatchewan Health Authority – Saskatoon and University of Saskatchewan, Department of Pediatrics, is seeking applications for a full-time Developmental Pediatric specialist. The Department of Pediatrics is dedicated to providing exemplary health care for children, ensuring excellence in training of future pediatrics health care providers, undertaking meritorious research and advocating for the health and well-being of children and youth.

Depending on the individual's experience the work will be within a combination of diagnostic assessments for a broad range of developmental concerns including autism spectrum disorder, neuromotor conditions, intellectual disability and Fetal Alcohol Spectrum Disorder. Outreach travel clinics to Northern Saskatchewan are an additional expectation of the successful applicant.

The Alvin Buckwold Child Development Program is a tertiary resource providing consultation and community support for the management of children with disabilities. The successful applicant will be expected to work with the inter-disciplinary teams and provide medical expertise to support these teams.

Compensation details – competitive contract value

Benefits – Benefits are the responsibility of the successful candidate

Location of practice – Saskatoon, Saskatchewan

Qualifications/Requirements of the position – Applicants in consideration will have Royal College certification in Pediatrics and be eligible for licensure with the College of Physicians and Surgeons of Saskatchewan. Preference will be given to candidates with Royal College certification in Developmental Pediatrics, applicants with Royal College certification in Pediatrics will be considered.

The Alvin Buckwold Child Development Program, located in the Kinsmen Children's Centre, is a specialized rehabilitation facility serving children (0-18 years) from central and northern Saskatchewan. It provides assessment and rehabilitation treatment services to children who have (or are at risk of having) physical and/or cognitive developmental delays.

Developmental pediatricians provide consultation and work closely with a child's or youth's "circle of care," integrating information from other specialists and allied health team members. The ABCDP team has wide representation from a number of specialties including Developmental Pediatrics, Physical Therapy, Occupational Therapy, Speech & Language Pathology, seating, feeding, Clinical Psychology & Social Work.

To Apply: SHA supports a shared commitment to a Representative Workforce that is respectful and inclusive of all staff and clients and welcomes applications from those who will contribute to the diversity of our community. All qualified candidates are encouraged to apply; however, Canadian citizens and permanent residents will be given priority.

Interested candidates, please submit your curriculum vitae in confidence to:
