Gynecological Oncologist Physician
Department of Obstetrics and Gynecology, Saskatoon Health Region

Posting Date: July 21, 2017

Position profile - Saskatoon Health Region in partnership with the University of Saskatchewan, College of Medicine and Saskatchewan Cancer Agency seeks applications for a Gynecological Oncologist. The physician will work within a multi-disciplinary team to provide safe patient centered care. Clinical service includes: new patient visits/consults and the appropriate medical/surgical care, associated follow-up visits and ongoing monitoring. The Gynecological Oncologist undertakes colposcopic procedures and the associate treatment procedures resulting from colposcopy procedures for the early detection/prevention of cancer. The successful applicant will have appointments with the Saskatoon Health Region, Cancer Agency and the University of Saskatchewan and will participate in the educational activities and teaching of the Division with medical students and residents as well as the ability to have protected time dedicated to clinical practice and research.

Compensation - Contract: $467,000-$587,000 annually

Benefits - Responsibility of the physician

Location of practice - Saskatoon, Saskatchewan

Qualifications / Requirements of the position - Interested applicants must hold their MD, be eligible for licensure with the College of Physicians and Surgeons of Saskatchewan and be certified in Gynecological Oncology with the Royal College of Physicians and Surgeons of Canada.

The Saskatoon Health Region is one of the most integrated and complex health delivery agencies in Canada. We are the largest health region in Saskatchewan serving more than 300,000 residents in over 100 cities, towns, and rural municipalities. Saskatoon Health Region is the largest single employer in the province with over 14,000 staff and 1000 physicians across the Region providing a complete range of health services to residents of central and northern Saskatchewan. The city’s three acute care hospitals – St. Paul’s, City, and Royal University – comprise three of the province’s tertiary teaching centres.

The Saskatchewan Cancer Agency provides leadership to cancer care in Saskatchewan and operates prevention and early detection programs, conducts innovative research and provides safe patient and family-centered care at two comprehensive cancer centers – the Allan Blair Cancer Center Centre, Regina and the Saskatoon Cancer Centre.

The University of Saskatchewan campus is located on the shores of the South Saskatchewan River in Saskatoon, a city with a diverse and thriving economic base and a vibrant cultural life. The UofS is a research-intensive institution with 22,000 students and 7,000 faculty and staff, and a strong reputation for innovation and excellence. It is home to the newly constructed Academic Health Sciences Complex (http://library.usask.ca/hs/new-building.php), the newly created Respiratory Research Center and two of the largest science projects in the country – the Canadian Light Source synchrotron (www.lightsource.ca) and the Vaccine and Infectious Disease Organization / International Vaccine Centre (www.vido.org). A users group is available for collaborative research with clinical faculty using the $173.5 million Canadian Light Source synchrotron, owned by the University of Saskatchewan. The College of Medicine has an intake of 100 students per year with a commensurate number of positions for residency training.

The City - Saskatoon Shines - With more hours of sunshine than any other major Canadian city and a population of 255,000, Saskatoon is the largest city in Saskatchewan, offering non-stop entertainment opportunities including world class events, festivals and attractions, a strong arts and music focus, and a short drive to the northern lake country. Saskatoon has more golf courses and restaurants per capita than anywhere in North America and is noted for its outstanding walking and biking trails along the riverbank. Excellent educational facilities such as the University of Saskatchewan, home of the Canadian Light Source synchrotron, draw the best minds from around the world creating a youthful vitality and cultural richness evident in every neighbourhood.

To Apply - Saskatoon Health Region and the University of Saskatchewan supports a shared commitment to a Representative Workforce that is respectful and inclusive of all staff and clients and welcomes applications from those who will contribute to the diversity of our community. All qualified candidates are encouraged to apply; however, Canadian citizens and permanent residents will be given priority.

Interested candidates should submit their curriculum vitae by no later than August 31, 2017, in confidence to:
