

Coming to the Royal University Hospital site? What you need to know.

Portions of the Royal University Hospital (RUH) parkade are under repair and construction of the new maternal and children's hospital is underway.

If you are driving to and parking at RUH...

- Please expect traffic delays and follow detour signs.
- Give yourself additional time to find parking in the parkade in order to make it to your procedure/test/appointment on time. Parking spaces are limited.
- Parking spots are often available on the top two levels of the parkade (Level 4 and Level 5). These do NOT have elevator access and require you to use stairs. However, you can catch our courtesy shuttle from these levels. Please consider parking here if you do not have mobility challenges or do not require the use of a stroller for small children.
- Labouring women have 24/7 access to short-term parking outside the Old Main Entrance (1955 Building). Labour and Delivery is located through this entrance and up to the 4th floor in the 1955 Building.
- Vehicles over two metres (2 m) in height do not fit in the parkade. We have oversize vehicle parking just to the south of Ellis Hall, next to Dubé Centre.

Once you have parked...

If you need a ride to and from your vehicle, catch the RUH Courtesy Parkade Shuttle.

Drivers can take you to/from the Level 3 hospital entrance within the parkade. They will also bring you to or drop you off at entrances outside the at Old Main Entrance, Dubé Centre or Ellis Hall.
