

ANDROLOGY
POST-VASECTOMY SEMEN ANALYSIS REQUISITION

To be completed by the doctor's office:

Patient name: _____

Address: _____

Saskatchewan Health Card Number: _____

Date of birth(dd/mm/yyyy): _____

Doctor's full name: _____ Additional copies to: _____

Date of surgery(dd/mm/yyyy): _____

Please note: Drop off is arranged by a booked appointment only. Please call (306) 655-5970 to book your appointment. Specimen drop off time is 8 a.m. to 10 a.m., Monday to Thursday, at the St. Paul's Hospital Test Centre. Collect the specimen prior to arriving at the Test Centre.

For results: Please call your doctor's office. Allow seven (7) to ten (10) days for reporting.

IMPORTANT NOTES FOR THE TESTING

- Semen analysis is only to be done **12** weeks after a vasectomy procedure. Any specimen collected before the 12 weeks will be **CANCELLED** by the Laboratory.
- Please submit the **entire** ejaculate.
- Obtain the requisition and a sterile Starplex container from the doctor's office. Patient's name, health card number, date of birth, doctor's full name, and surgery date indicated above must be filled out by the doctor's office. **Please note, an incomplete form will result in cancellation of the test.**
- The specimen must be delivered within **30 minutes of collection**.

PLEASE FOLLOW THE INSTRUCTIONS FOR THE SEMEN SPECIMEN COLLECTION AND TRANSPORT:

- The specimen is preferably collected by masturbation into a **STERILE CONTAINER**.
- **DO NOT** use lubricants during the collection.
- **DO NOT** freeze or overheat the specimen during transport. The specimen should be kept to body temperature as possible. Consider tucking it inside your jacket in the winter and keeping it out of direct sunlight in the summer.
- The specimen **MUST** be delivered to the St. Paul's Hospital Test Centre located on the main level of the hospital (across the hallway from the Leslie and Irene Dubé Urology Centre of Health).

To be completed by the patient:

Date and time of collection(dd/mm/yyyy): _____

Is this the first semen specimen for testing? Yes No

Method of collection: Masturbation into container Other (explain) _____

Is the entire ejaculate collected in the specimen container? Yes No
