Diabetes Reference Group Workplan 2013-2016

Surveillance - Primary Prevention 2013-14

**INPUTS**
- DRG
- Money
- Stakeholders

**ACTIVITIES**
- Identification of Infrastructure supports
- Collation of Infrastructure supports
- Identification of system requirements
- Development of Budget for system creation and maintenance
- Acquire surveillance system requirements

**OUTPUTS**
- Determination of Desired State
- Creating Care and Service Targets
- Identification of Data Sources
- Collation of Data Sources
- Identification of current state

**PROCESS**
- Incidence/Prevalence of no more than 5 cases per 1000 population
- No increase to diabetes related death rates
- No increase to hospitalization rate for diabetes complications
- Access to SHR specific CDQIP information within a year
- Maintain or improve percentage of patients diagnosed seen at Live Well

**SHORT TERM**
- Access to SHR specific CDQIP information within a year

**INTERMEDIATE**
- Maintain or improve percentage of patients diagnosed seen at Live Well

**LONG TERM**
- Acquire surveillance system requirements
Diabetes Reference Group Workplan 2013-2016

Surveillance - Primary Prevention 2014 - 2015

**INPUTS**
- DRG Money Stakeholders
- Identification of current state
- Acquire surveillance system requirements

**ACTIVITIES**
- Alignment with MOH
- Adapt Chronic Disease Quality Improvement Program Indicators for Use in System
- Surveillance system created
- Launch Surveillance System
- Initiate data collection and reporting

**OUTPUTS**
- Initial data compiled

**PROCESS**
- Chronic Disease Quality Improvement Indicators
  - Diabetes Type
  - Demographics
  - Blood Pressure
  - BMI
  - Drug Use
  - Renal Screening
  - Neuropathy Screening
  - Eye Exam
  - Foot Exam
  - Smoking

**SHORT TERM**
**INTERMEDIATE**
**LONG TERM**
