Share your voice at Children's Hospital of Saskatchewan design open house

(July 24, 2012) Saskatoon – Saskatoon and area families have a chance to give their input on the design of the province's new maternal and children's hospital.

Join architects, interior designers and project team members at a design open house for Children's Hospital of Saskatchewan (CHS) on **Thursday, July 26** from **3:30pm to 8:30pm** at the CHS Warehouse **3310 Millar Avenue** in **Saskatoon**. Walk through life-size models of some of the rooms planned for the new hospital including an emergency room and a pediatric inpatient room.

The open house takes place during the third scheduled detailed design workshop for the project and ensures that ideas or comments families share are considered in the final design of the hospital.

Saskatoon Health Region encourages families from across the city to take a few minutes to stop by and share their ideas with the design team.

Children's Hospital of Saskatchewan will be located next to Royal University Hospital in Saskatoon. Construction is scheduled to start in early 2014 and be completed by late 2016.

Visit www.saskatoonhealthregion.ca/chs for more information.
