At Extencare Preston, we understand that each resident's quality of life depends on an approach to care that combines input from residents and family members with individual assessments from a team of trained caregivers. This approach ensures that support and care is tailored to meet the needs of each unique individual.

Our home is warm, personal and pleasant. A home environment needs to be safe to feel secure, so at Extencare Preston there are call bells at each bed, in each washroom, and in all tub rooms. Our building is also completely equipped with heat and smoke detectors, and a two-stage fire alarm system with pull stations.
