OUR MISSION:

We improve health through excellence and innovation in service, education and research, building on the strengths of our people and partnerships.

OUR VISION:

Healthiest people, healthiest communities, exceptional service.

OUR VALUES:

- Respect
- Compassion
- Excellence
- Stewardship
- Collaboration

PHILOSOPHY OF CARE:

Last Mountain Pioneer Home provides care in accordance with the Eden Philosophy. As such, we work towards alleviating the suffering caused by loneliness, helplessness, and boredom by striving to create a human habitat for our elders and thus a life worth living.

Last Mountain Pioneer Home is home for **39 residents**. 38 are long term care beds and 1 is for Respite.

We are located in the small town of Strasbourg. Therefore, we very much have that small town atmosphere to our home. Forming meaningful relationships with our residents is very important to us.

PERSONAL SERVICES: Hairdresser visits the home once a month. Message Therapist and Beautician will visit upon request. Health Centre is next door and a physician and nurse practitioner visit twice per week.

ACTIVITIES/ PROGRAMS OFFERED: We have an active activity program that provides a variety of activities to our residents including daily exercises, story and devotion, crafts, breakfast club, bingo, baking, bus trips, etc. We also have a large volunteer community that provide us with services such as entertainment, worship services, special teas, and much, much more.

PETS: We encourage families and friends to bring their pets to visit. We have a cat, Ginger, that lives in the home.
