

PARKRIDGE CENTRE

110 GROPPER CRESCENT, SASKATOON, SK S7M 5N9

VISION:

Living each day to the fullest along life's journey.

We Believe That.... Each person is unique. Individual needs and choices are supported and promoted to the highest level of well-being, function and independence. Dignity, comfort, happiness and hope are of prime importance along life's journey. This is the residents' home and that they are afforded the same rights and freedoms as others in their home. Family members are important and these relationships are supported within Parkridge Centre.

To support the resident's needs, we will continually learn, adapt and change in response to their needs within their home. People are highly valued and that each individual is equally important in meeting the purpose and vision of Parkridge Centre. The Parkridge Centre community is an integral part of the community of Saskatoon.

MISSION:

We improve health through excellence and innovation in service, education and research, building on the strengths of our people and partnerships.

OUR PURPOSE:

The Parkridge Centre community enhances and supports the lives of individuals with specialized needs in a home environment.
